

O.U.R.<sup>™</sup> CULTURE (way of life) is REALLY ...G O O D  
WE LIVE to DELIVER

...MAXIMUM POSITIVE IMPACT on your HEALTH & on your PROSPERITY & WEALTH!

Our culture has produced a vibrant way of life and as such, has great value. We share that value through providing optimized access to health & wealth. We are an Access & Impact platform. It is also yours; please access it for the maximum impact and if you like, feel free to share it. Every given individual has great value. Every given individual has a need to open up their natural potentiality for optimum well-being and genuine *connection*. Everybody has the inherent capacity to learn and work to conduct their own 'Self directed and Elevated Health Life practice'; it is a place where all people *thrive from*; regardless of whether they know it or not. The question is how much time and investment are you as an individual or business willing to invest into accessing your health and impacting the world the wealth from raising your awareness, creating enhanced health and upgrading your capacity to produce real prosperity by collaborating and cooperating with others who are doing the same? And, how can we facilitate the population and help to make everybody, everywhere healthier – happier and wiser. This web portal is one way in which we demonstrate our capacity to create access and maximize impact.

Our mission is continue to create optimized access to health and generate maximum impact for both health and wealth in this world. We conduct daily contemplative meditations. We practice the elegant arts in mindfulness. We practice Tai Chi, Chi Kung and Yoga. We also peacefully and for our good health, do *walk the Earth* for the benefit of our own health, all people, lands, seas, plants and the animal kingdom, healing as we continue our great and far journeys. In the remote high alpine deserts, we are known as, and are 'the Earth Walkers'. We possess a cognitive understanding of the universe and its Deep Space with the intelligent life which exists in that Deep Space. And, as such, we too are known as 'the Sky Walkers'. In reality, there are no limitations to our capacity to seek well-being & prosperity.

Our vision is to see 'local community' and communities everywhere ...grow in good health and increase in understanding from the smart application of Earth Medicine so people everywhere may enjoy the goodness of one another from understanding how to enjoy & benefit from the goodness of Earth and its place in space. Thank you for taking your time to enjoy the trip through this web portal. May you enjoy many repeated visits as it continues to fluidly move with the shifting sands of radical change in the world today and generate optimal access and impact for all who enjoy and partake in its extraordinary dynamism. “To the Good Earth Medicine and ecologically friendly ...Prosperity!” Do Access and Be Mindful about how you Impact yourself and the world around you. To Your Health! To Your Wealth!
